

Gate three query process

Strategic solution(s)	SESRO
Query number	SER012
Date sent to company	24/09/2025
Response due by	26/09/2025

Query

This query relates to the cost information for SESRO required as part of the Gate 3 submission.

In line with the guidance under Section 8, we have been unable to find a complete ACWG template as part of your Gate 3 submission. We expect companies to report cost information using the 'Expenditure by AMP' template in addition to providing an update to the WRMP tables.

Could you please respond to this query with a completed 'Expenditure by AMP' template for SESRO in the context of the new cost estimates which we note have changed since the PR24 final determinations? We will attach the template alongside this query.

Solution owner response

Please see the updated spreadsheet attached on development expenditure. We have also broken down the same figures into RAPID WBS, for completeness.

Date of response to RAPID	26 September 2025
