Strategic solution(s)	Thames to Affinity Transfer
Query number	TAT005
Date sent to company	02/08/2021
Response due by	04/08/2021

Query

We request the natural capital tables associated with the Environmental Assessment Report and any spreadsheets associated with the Water Framework Directive Assessment.

Solution owner response

The requested Natural Capital Assessment calculations and the supporting spreadsheets for the Water Framework Directive Assessment have been uploaded to the RAPID sharepoint site.

[The detailed assessment spreadsheets are considered too detailed and insufficiently developed for publication. They represent draft information that relates to material or data which is still in the course of completion in travel to Gate 2. Therefore, these are fully redacted and not published]

In all cases the documents submitted to RAPID contain information that is commercially confidential. Please ensure that appropriate steps and safeguards are observed in order to maintain the security and confidentiality of this information. Any requests made to RAPID or any organisation party by third parties through the Freedom of Information Act 2000, the Environmental Information Regulations 2004, or any other applicable legislation requires prior consultation and consent by each of Thames Water and Affinity Water before information is released as per the requirements under the respective legislations. The content of the documents

requested is draft and relates to material or data which is still in the course of completion in travel to Gate 2, and should not be relied upon at this early stage of development. We continue to develop our thinking and our approach to the issues raised in the document in preparation for Gate 2.
