Bin it - don't block it

DM campaign to customers

The cooking fat that caused a stink.

Pouring cooking fat down the sink clogs pipes which can force raw sewage back up into your home.

Bin it - don't block it.

This is the cooking fat that was poured down the sink...

That backed up the sewage and spilled out all over the home.

Free fat trap inside.

That backed up the sewage

That spewed out all over the home

This is the cooking fat that was poured down the sink...

This is the wet wipe that was flushed down the loo that mixed with the rest that didn't break down that blocked the pipe that needed a plumber that broke the bank that wiped out the holiday.

Bin it - don't block it.

Wet wipes clog pipes and calling out a plumber could drain your wallet. To find out more visit thameswater.co.uk/dontblockit
