

Meter ordering form

Please complete all the fields on this form, otherwise your order could be delayed.

We'll call you to confirm the order within 24 hours of your request. We won't be able to place the order if we can't make contact with you.

We aim to deliver your meters within four weeks, although it can take up to 12 weeks for meters that are 50mm or larger. We're only able to provide a maximum of 200 meters per order. Deliveries outside the Thames Water region will incur an additional charge. Please make sure you only order meters when you need them, or as your storage space allows, because we're unable to hold stock for you.

Please attach this form in an email to developer.services@thameswater.co.uk
