Household Charges Schedule 2020-21.....	39

Introduction

These 2020-21 Charges Schemes are made by Thames Water Utilities Limited under the powers conferred by Section 143 of the Water Industry Act 1991 (as amended) and comply with Ofwat's Charges Scheme Rules issued in July 2019. They do not cover charges raised under agreements.

This booklet includes schedules of household primary charges for 2020-21, which form part of the Charges Schemes.

Following Ofwat's leakage investigation which concluded in August 2018, we have committed under section 19 of the Water Industry Act 1991 to provide a rebate to our water service customers in 2020-21. This equates to a reduction of around 5% applied to the wholesale water charges used to calculate 2020-21 bills. This booklet therefore contains the tariffs we have set prior to the rebate being applied as well as the prices that will be used to calculate customer bills with the rebate included.

Please note that this document was republished on **28 August 2020**. The table below sets out any changes that have been made to the originally published version.

Revision history

Date	Version	Changes
3 February 2020	1.0	n/a
28 August 2020	2.0	Section on 'WaterSure tariff' added to Household Charges Schedule 2020-21 on page 45

Water Supply Charges Scheme 2020

- 1 This scheme, which revokes all previous Water Supply Charges Schemes made by Thames Water and which may be referred to as the Thames Water Utilities Limited Water Supply Charges Scheme 2020, is made by Thames Water under Section 143 of the Act and shall operate from 1 April 2020 until 31 March 2021 inclusive.

Interpretation

- 2 (1) Subject to sub-clause (2), the Interpretation Act 1978 shall have effect for the interpretation of this scheme as it has effect for the interpretation of an Act of Parliament.

(2) In this scheme, unless the context otherwise requires:

“the Act”

means the Water Industry Act 1991 including any statutory amendments whether made before or after the date of this scheme;

“assessed household charge”

means a fixed charge, split into bands, which relates either to a single occupier or the number of bedrooms in a house. This is set out in the Charges Schedule;

“billing period”

means a period of time determined at the discretion of Thames Water and in respect of which Thames Water may submit a bill to the consumer for any charges made under this scheme in respect of specified premises;

“Charges Schedule”

means the schedule of charges fixed by Thames Water for the financial year 2020-21, which forms part of this scheme;

“charging area”

means an area determined by Thames Water to reflect in its charges the differences in the average use of the service for various types of house and broad variations in net annual value for similar properties throughout the water supply area of Thames Water;

“consumer”

means the person who is for the time being, the person on whom the liability to pay charges to Thames Water in respect of a supply of water would fall;

“customer”

means a person supplied, or about to be supplied, with water by Thames Water;

“domestic garage, car space or store area”

means any garage, car space or store area used wholly or partly as a domestic garage, car space or store area or intended for such use;

“the due date”

means a date which is 50 calendar days after the service of a Measured Charges Notice on Thames Water;

“house”

means a dwellinghouse, whether a private dwellinghouse or not, and includes any part of a building if that part is occupied as a separate dwellinghouse;

“the Licence”

means the Instrument of Appointment dated August 1989 under Sections 11 and 14 of the Water Act 1989 whereby the Secretary of State for the Environment appointed Thames Water as the water undertaker and the sewerage (wastewater) undertaker for the areas respectively described therein, and includes any amendments whether made before or after the date of this scheme;

“Measured Charges Notice”

means a written notice served on Thames Water under the provisions of Section 144A of the Act. Thames Water provides an application form for this purpose and the completed application form will constitute the Measured Charges Notice. Thames Water will also accept a letter from the consumer which states that the consumer requires charges for a water supply to be fixed by reference to the volume of water supplied;

“no access charge”

means a charge that is applied to consumers where the customer or consumer has denied Thames Water access for the purpose of fitting, maintaining, replacing or reading a meter;

“the Regulations”

means the Water (Meters) Regulations 1988 (S.I. 1988(1048)) as amended;

“service pipe”

means a service pipe within the meaning given in the Act;

“Thames Water”

means Thames Water Utilities Limited;

“valuation list”

means the last valuation list published under Part V of the General Rate Act 1967 (including any published amendments);

“Vulnerable customer”

means any customer who comes within a class of persons prescribed by any Regulations made under sub-section 143A(3) of the Act. Thames Water’s arrangements for implementing any such Regulations are described in the document headed “Provisions Under Regulations To Protect Vulnerable Customers under the WaterSure Scheme”;

“WaterHelp”

means the reduced tariff for eligible consumers which is referred to in clause 15 and applies to charges payable under clauses 4 and 5. This tariff is set at 50% of the charges that are payable under clauses 4 and 5 by consumers who are not eligible for WaterHelp.

NB

Please note that WaterHelp is the new name for what was previously called WaterSure Plus. Some customers may still see the WaterSure Plus name being used on bills issued under this Charges Scheme, but the tariff criteria and benefits are the same;

“WaterSure tariff”

means the maximum charge that a Vulnerable customer can be obliged to pay and which is set out in the Charges Schedule.

General

- 3 (1) It is intended that the charges to be made under this scheme will, with any other relevant sources of revenue, provide the income necessary to finance the water supply function of Thames Water. These charges shall be fixed with due regard to the principles laid down in the Act and in Condition E of the Licence.

(2) The charges under this scheme are levied in accordance with the provisions of the Act and the Licence and any taxes (including VAT) imposed by law on the making of such charges shall be recoverable in addition to such charges.

Charges for unmetered supplies

- 4 (1) Subject to the succeeding provisions of this scheme, there shall be payable to Thames Water in respect of each unmetered supply of water, an amount

equal to the sum of the charges referred to in paragraphs (a) and (b) below, PROVIDED ALWAYS that where a consumer has exercised a statutory right to elect for charging by reference to volume and Thames Water has determined that fitting a meter would either not be reasonably practicable or incur unreasonable expense, the amount payable for supplies to a house under this sub-clause 4(1) shall be the assessed household charge.

(a) Rate based charge

The amounts in the pound shown in the Charges Schedule multiplied by the net annual value of the premises.

(b) Graduated fixed charge

(i) In the case of each service pipe providing a supply to premises other than a house, a graduated fixed charge, the amount of which is shown in the Charges Schedule, fixed by reference to the size of the relevant service pipe (including where appropriate a notional pipe size).

(ii) In the case of each service pipe providing a supply to a house, a fixed charge, the amount of which is shown in the Charges Schedule, fixed by reference to a pipe size of up to 15mm.

Such a fixed charge will apply only in respect of premises with a net annual value (or a notional net annual value fixed under sub-clause (5) as the case may be) equal to or exceeding £50.

(2) The amount in the pound fixed annually by Thames Water for the purpose of sub-clause (1)(a) is different for each charging area.

(3) Subject to the following provisions of this clause, for the purposes of any rate based charge the net annual value of any premises (or the rateable value so appearing in any case where a rateable value but no net annual value appears) shall be taken to be that value which appeared in the last published valuation list.

(4) In the absence of such information and until such time as the information is received, Thames Water will apply a default value based on their best estimate in the light of whatever relevant information is reasonably available.

(5) In the case of premises not appearing in the valuation list or having no value appearing therein, any rate based charge shall be based on a notional net annual value which shall be determined by Thames Water and may be revised by them. The notional net annual value shall be determined by reference to properties on the valuation list of a similar size and in the same charging area. It will be based on information provided to Thames Water by the consumer. In the absence of such information and until such time as the information is received, Thames Water will apply a default value based on their best estimate in the light of whatever relevant information is reasonably available.

(6) Unless Thames Water otherwise agrees, where there is communication otherwise than by a highway, between buildings or parts of buildings in the occupation of the same customer, those buildings or parts of buildings shall be treated, for the purpose of charging the rate based charge, as one building having a net annual value equal to the aggregate of their net annual values.

(7) Except where they are served by a metered supply, charges for each domestic garage, car space or storage area shall be payable as a single annual charge as shown in the Charges Schedule.

(8) Where two or more houses or other premises in the occupation of different customers are supplied with water by a common pipe, the consumer in respect of each of them shall be liable to pay the same water supply charges for the supply as he would have been liable to pay if it had been supplied with water by a separate pipe.

(9) Where the occupier of any premises ("the occupied premises") which do not receive a supply of water direct from Thames Water, has the right to use a supply of water in other premises (which is not charged for by Thames Water on a metered basis) by virtue of his occupation of the occupied premises, there shall be payable to Thames Water in respect of the occupied premises a sum calculated in accordance with the preceding provisions of this clause.

(10) Where an unmetered supply is used for the purposes of building or construction, a charge shall be payable to Thames Water, the amount of which is shown in the Charges Schedule. Such charge shall be in addition to any other charges payable under this clause 4.

Charges for metered supplies

- 5 (1) There shall be payable to Thames Water in respect of water supplied to a customer by meter, an amount equal to the sum of the following charges: the volume charge in (a) below; plus the graduated fixed charge in (b) below; PROVIDED ALWAYS and subject to the provisions of clause 15 that where the customer is a Vulnerable Customer, the maximum amount payable under this sub-clause 5(1) shall be the WaterSure Tariff as administered under the WaterSure Scheme.
- (a) Volume charge - The amount produced by multiplying the volume of water supplied as measured by the meter or as estimated (where estimates are permitted under this Charges Scheme) by a rate per cubic metre as shown in the Charges Schedule.
- (b) Graduated fixed charge - A graduated fixed charge in respect of each pipe which is used for the water supply to the customer, the amount of which is shown in the Charges Schedule.

Meter testing

- 6 Where a consumer requires Thames Water to test a meter, a charge for testing will only be made if the test proves that the meter is recording within the tolerances referred to in the Regulations and will not exceed any charges prescribed by the Regulations.

Other charges

7 (1) For services performed, facilities provided or rights made available in pursuance of the water supply function of Thames Water, other than those referred to above, Thames Water may fix such charges to be payable by persons in receipt of or benefiting from such services, facilities or rights as appear to Thames Water to be appropriate having regard to cost and such supplementary charges, if any, as may in the opinion of Thames Water be necessary to comply with any statutory orders, directions, undertakings, determinations or similar obligations affecting Thames Water.

(2) Without prejudice to the generality of sub-clause (1) and its ability to fix further charges some other charges which have already been fixed by Thames Water are shown in the Charges Schedule.

Opting for a meter

Measured Charges Notice

8 (1) In lieu of the rate based charges and fixed charge otherwise payable in accordance with clause 4, a consumer has the right to opt to take and pay for a supply of water by meter on the terms contained in clause 5. Where a consumer exercises this right, a meter will be fitted free of charge subject to the following provisions of this clause.

(2) The consumer may exercise this option by serving a Measured Charges Notice on Thames Water at any time in respect of premises in which, or in any part of which, a person has his home. The notice must be in writing and identify the premises in question. Thames Water will consider such a notice has been received on the day when a copy is received by its Customer Centre at PO Box 286, Swindon SN38 2RA.

(3) The consumer will become liable to pay charges under clause 5 from the date a meter has been fitted pursuant to a Measured Charges Notice.

(4) Subject to sub-clause (5), the meter will be fitted by the due date. Where it is not, the consumer's only liability to pay charges under this scheme from the day after the Due Date until the date the meter has been fitted will be in respect of charges under sub-clause 5(1) (b).

(5) Sub-clause (4) will not apply where the meter has not been fitted for any of the following reasons:

- (i) it is not reasonably practicable to fit a meter. It will normally be regarded as reasonably practicable if the whole of the customer's supply can be controlled by a single meter and if there is an easily accessible length of pipe close to the point where the pipe enters the property. In some cases (particularly in flats) the installation of a second meter will be considered subject to sub-clause 8(5) (ii).

- (ii) fitting a meter would incur Thames Water in unreasonable expense. In some cases, it may be regarded as unreasonably expensive if it is necessary to fit more than one meter, or make any alterations to the pipework. The cost of any reasonable reinstatement will be regarded as falling within reasonable expense.
- (iii) delays caused by the consumer or customer, including, but not limited to, non attendance at pre-arranged appointments, or a request by the consumer or customer to fit the meter at a later date.

Any dispute as to whether fitting a meter is impracticable or unreasonably expensive may be referred to the Water Services Regulation Authority by the consumer or by Thames Water for a decision.

(6) Thames Water will select the location of the water meter. Our preferred location is outside the home. This is so we can detect leakage on the supply pipe and easily read the meter without having to disturb the consumer. Where the consumer requests that the meter be fitted in an alternative location, Thames Water may at its discretion comply with such a request, in which case the consumer must first pay any additional costs that this will incur.

Notice to pay the assessed household charge

(7) (a) This sub-clause applies where Thames Water has advised the consumer by letter that they have not fitted a meter because it is not reasonably practicable to do so, or because it would involve unreasonable expense.

(b) Where this sub-clause applies, the consumer will be placed on the assessed household charge from the date of the letter except in those cases where this would result in the consumer paying higher charges, in which event, the consumer will continue to pay charges on the basis of Clause 4 PROVIDED ALWAYS that the assessed household charge will apply to subsequent occupiers.

Calculation of assessed household charge

(8) The assessed household charge will be calculated by reference to information provided to Thames Water by the consumer completing and returning a questionnaire provided by Thames Water or by the consumer providing the information to an authorised employee or contractor of Thames Water either in person or by telephone. Where no such information is forthcoming, then Thames Water reserves the right to transfer the consumer to band 5 of the assessed household charge. If, at a later date, the correct information is supplied, the account will be amended from the date the correct information is received by Thames Water, but no amendment will be made for any period prior to receipt of the information.

Reversion

(9) (a) This sub-clause applies where either the conditions in paragraph (c) of this sub-clause or the conditions in paragraph (d) of this sub-clause are satisfied in relation to premises in respect of which either a Measured Charges Notice or a notice under sub-clause 8(7) (both of which will be referred to as “relevant notice” for the purposes of this sub-clause) has been served on Thames Water.

- (b) Where this sub-clause applies, the consumer may, subject to the provisions of sub-clause 8(9) paragraphs (f) and (g), revoke the relevant notice at any time before the later of
- (i) the end of the period of twelve months beginning with the day on which either the supply began to be measured by volume for charging purposes or the day on which Thames Water received the consumer’s notice under sub-clause 8(7); or
 - (ii) within one month of receiving the second bill based on the volume of water supplied as measured by the meter.

The consumer will not be allowed to revoke a Measured Charges Notice after such period. All meters fitted pursuant to a Measured Charges Notice will be the property of Thames Water and must remain in situ even after the valid revocation of a Measured Charges Notice, as they will be used as the basis of charging subsequent occupiers.

- (c) The conditions in this paragraph are:
- (i) that the person who gave the notice had not given any previous notice in relation to the premises, and
 - (ii) that he remains the consumer in respect of the premises.
- (d) The conditions in this paragraph are:
- (i) that the person who gave the notice has, since the notice was given, ceased to be the consumer in respect of the premises,
 - (ii) that neither he nor the person who has become the consumer had given any previous notice in respect of the premises, and
 - (iii) that any person who was in occupation of the premises when the notice was given remains in occupation.

- (e) Where a relevant notice has been revoked, Thames Water must:
 - (i) if reasonably practicable before the end of the period of twelve months referred to in paragraph (b) of this sub-clause,
 - or
 - (ii) in any other case, as soon as is reasonably practicable after the end of that period, revert to fixing the charges for the supply without reference to either the volume of water supplied or the assessed household charge.
- (f) Revocation of a Measured Charges Notice will not affect Thames Water's ability to carry out progressive metering under clause 9.
- (g) A Measured Charges Notice may only be revoked where any conditions which may have been prescribed under Section 144B of the Act are not satisfied in relation to the premises.
- (h) Where a consumer exercises the right to revert under this sub-clause 8(9), subsequent consumers at the same premises will be obliged to pay charges on a measured basis under the provisions of clause 5.

Progressive metering

- 9 (1) (a) Thames Water may at its discretion resolve at any time that consumers may be required (upon not less than twenty eight days notice in writing being given to the consumer) to take and pay for such water on the terms contained in clause 5 of this Scheme PROVIDED ALWAYS that Thames Water may not begin to fix charges by reference to volume in respect of those premises described in paragraph (b) of this sub-clause unless the consumer has either:
 - (i) served a Measured Charges Notice on Thames Water which has not been revoked, or
 - (ii) consented to the charge in respect of the premises being so fixed (in which case he will have the same reversion rights set out in sub-clause, 8(9) above for a twelve month period from the date of such consent) which consent has not been revoked
- (b) this paragraph applies where
 - (i) water is supplied to any premises in which, or in any part of which, a person has his home,
 - (ii) there has been a change in the occupation of the premises and unmeasured charges have been demanded from the person who has become the consumer,
 - (iii) any conditions which may have been prescribed under Section 144B of the Act are satisfied in relation to the premises

PROVIDED ALWAYS that where the prescribed condition relates to houses which are in an area determined to be an area of serious water stress for the purposes of the Water Industry (Prescribed Conditions) Regulations 1999 (as amended) and which have been fitted with a meter under a programme for the fixing of charges by reference to volume as specified in Thames Water's water resources management plan published under section 37B(8)(a) of the Act, the provisions of sub-clause 9(5) shall apply.

(2) Where Thames Water has attempted under the provisions of this clause 9 to meter a house that is already receiving a supply of water from Thames Water, or has attempted to maintain, replace or read a meter which serves an existing metered customer, and the consumer or the customer has denied access to Thames Water; Thames Water reserves the right to transfer the consumer to the no access charge.

(3) Without prejudice to the provisions of sub-clause (1), it is the policy of Thames Water to fix charges by reference to volume in respect of premises:

- (a) which have never previously been connected to one of Thames Water's mains (including separate units created by converting existing premises), or
- (b) which use water supplied by Thames Water for the automatic replenishment of a swimming pool with a capacity greater than 10,000 litres, or
- (c) which use water supplied by Thames Water for watering a garden, other than by hand, by means of any apparatus, or
- (d) which are not used solely as a persons home and the other use is the principal use of the premises (including, without limitation, residential homes for the elderly and similar premises)
- (e) where there has been a change of occupation and no charges have yet been demanded from the person who has become the consumer.

(4) Where a meter has been fitted by Thames Water at any premises (including any meter not previously used for charging purposes) and there has been a change of occupier, subsequent occupiers of the premises taking the supply of water will be liable to take and pay for such supply on the terms contained in clause 5 of this Scheme.

(5) Where this sub-clause applies:

- (a) Thames Water will advise the consumer by letter (the activation letter) when it has taken an initial reading of the meter. Thereafter, Thames Water may send to the consumer, at intervals to be determined by Thames Water, letters (bill comparison letters) which compare the charges payable by the consumer with the charges that would be payable if the consumer was paying by reference to volume.

- (b) Except where paragraph 9(5)(c) or 9(5)(d) applies, the consumer will become liable to pay charges by reference to volume not less than one year after the date of the activation letter PROVIDED ALWAYS that:
 - (i) this is without prejudice to the consumer's right to serve a Measured Charges Notice before this time; and
 - (ii) Thames Water will advise the consumer by letter at least twenty eight days before his liability to pay charges by reference to volume will commence.
- (c) Where the consumer serves a Measured Charges Notice, within twelve months of the date of the activation letter he may choose to pay charges by reference to volume with effect from the date of the activation letter within twelve months of the date of the activation letter. The consumer may exercise this option by visiting thameswater.co.uk/contactus, or contacting Thames Water's Customer Centre at PO Box 286, Swindon, SN38 2RA
- (d) Where Thames Water has advised the consumer by letter that they have not fitted a meter because it is not reasonably practicable to do so, or because it would involve unreasonable expense, the consumer will become liable to pay the assessed household charge, as calculated in accordance with the provisions of sub-clause 8(8), from the date of the letter, PROVIDED ALWAYS THAT:
 - (i) the charges payable for the first twelve months following the receipt of the letter shall not exceed the amount of charges that would have been payable on the basis of Clause 4; and
 - (ii) if within that twelve month period, there is a change of occupier, the new consumer will be liable to pay the assessed household charge from the date of occupation.

(6) Thames Water shall be entitled to charge by measure on the metered supply charge basis for any piped supply of water taken for a tent, van or other conveyance (whether on wheels or not) and shall also be entitled to require the consumer to pay a deposit of money as security for such charge for such period of years as will give it a reasonable return on any special capital expenditure incurred by it in providing the supply.

Payment of charges in respect of unmetered supplies

- 10 (1) The consumer's liability for rate based charges, together with fixed charges and charges for domestic garages, car spaces and store areas, is in respect of each day of the customer's occupation of the premises to which the supply is made. Thames Water will issue bills for such charges in respect of a full year, except in cases where the customer's occupation commenced on a day other than 1 April, in which case the consumer shall be liable to pay a time apportioned part only of the charges due for the relevant year. However, where in any year a consumer who has paid charges to be paid under clause 4 gives notice in writing to Thames Water that he (or the customer) intends to vacate those premises, he shall be entitled to recover a time apportioned

part of those charges paid by him in respect of that year as from the date on which he (or the customer) ceases to be in occupation of such premises.

(2) Charges for unmetered supplies are payable in full on 1 April at the beginning of the charging year, except in cases where the customer's occupation commenced on a day other than the 1 April, in which case they will be payable on a day advised by Thames Water. However, consumers may choose to pay their charges by one of the following frequencies:

- (a) two, eight, ten or twelve instalments on dates to be agreed with Thames Water.
- (b) consumers who find it easier to pay more frequently may do so by agreement with Thames Water.

(3) Where the consumer has chosen to pay by instalments and any such instalment is not paid by the date it is payable, then the whole of the annual charges then remaining unpaid shall thereupon become payable.

(4) Persons Chargeable

- (a) The person responsible for payment of charges under this scheme shall be the occupier of the relevant premises to which the supply is made except where some other person is liable by agreement with Thames Water.
- (b) Where there are two or more people occupying the relevant premises to which the supply is made, the occupiers shall be jointly and severally liable for the payment of the charges.
- (c) Where the relevant premises to which the supply is made are divided into bed-sitting rooms with communal facilities the owner of the premises shall be regarded as the occupier and be liable for charges except where some other person has paid the charges or is liable by agreement with Thames Water.

(5) Where in any year a consumer who has paid the charges to be paid under clause 4 gives notice in writing to Thames Water of his desire that the supply of water to his premises be discontinued, he shall be entitled to recover from Thames Water a time-apportioned part of those charges paid by him in respect of that year as from the date when Thames Water could reasonably discontinue the supply following receipt of the notice.

(6) Where in any charging year a consumer enters into any formal insolvency procedure Thames Water will apportion all rate based charges on a daily basis up to the day immediately preceding the effective date of the relevant insolvency procedure ("the insolvency date"). Any apportioned charges after the insolvency date will not be affected by the insolvency procedure.

Payment of charges for metered supplies

- 11 (1) The charges calculated for metered supplies shall be due and payable when the volume of water supplied has been ascertained and a bill in respect thereof issued; provided that consumers may choose to pay such charges by monthly instalments (the actual date payable to be agreed with Thames Water). The instalment will be calculated by Thames Water on the basis of their estimates and will be adjusted in due course when actual meter readings are taken. Consumers who find it easier to pay more frequently may do so by agreement with Thames Water.
- (2) Where the consumer has chosen to pay by instalments and any such instalment is not paid by the date it is payable, then the whole of the metered charges then remaining unpaid shall thereupon become payable.
- (3) The record by the meter of the volume of water supplied shall be taken by Thames Water as nearly as practicable on the corresponding day of each billing period. Where a reading is not taken for any reason Thames Water may calculate a bill based on an estimate of the volume of water supplied. Where a bill has been calculated on the basis of such an estimate, the consumer may read the meter himself and provide the reading to Thames Water. Provided the consumer provides such a meter reading within 28 days of the date of the bill, Thames Water shall issue an amended bill based on that reading. A billing period shall not normally exceed one year.
- (4) Persons Chargeable
- (a) The person responsible for payment of charges under this scheme shall be the occupier of the relevant premises to which the supply is made except where some other person is liable by agreement with Thames Water.
- (b) Where there are two or more people occupying the relevant premises to which the supply is made, the occupiers shall be jointly and severally liable for the payment of the charges.
- (c) Where the relevant premises to which the supply is made are divided into bed-sitting rooms with communal facilities, the owner of the premises shall be regarded as the occupier and be liable for charges except where some other person has paid the charges or is liable by agreement with Thames Water.
- (5) Where a meter is fitted for charging purposes in premises during a charging year in respect of which the consumer has already received an account for rate based charges, the consumer will only be liable to pay a time apportioned part of the previous account calculated up to but excluding the date on which the meter is fitted. Where the previous account has been paid in full or in part, the consumer will be entitled to recover any payment made over and above the amount for which he is liable by virtue of the preceding provisions of this sub-clause. From the date of fitting the consumer shall be liable for the charges to be paid under sub-clause (2).

(6) Where a billing period is for a period during which a new volume charge is fixed by Thames Water, Thames Water may calculate the bill on an apportioned basis whereby some of the volume of water supplied is charged at the old rate with the balance of the water supplied charged at the new rate. Thames Water may calculate the apportionment based on an estimate by Thames Water of the volume of water supplied prior to the commencement of the new volume charge.

(7) Where the consumer is also the occupier of the relevant premises Thames Water may continue to hold him responsible for the payment of metered charges after he has ceased to be in occupation if:

- (a) he fails to inform Thames Water of the ending of his occupation of such premises at least two working days before he ceases to occupy them; and
- (b) the charges are in respect of a period ending no later than whichever of the following first occurs after he ceases to occupy such premises
 - (i) where he informs Thames Water of the ending of his occupation of such premises less than two working days before, or at any time after, he ceases to occupy them, the twenty-eighth day after he so informs them;
 - (ii) any day on which any meter would normally have been read in order for the amount of the charges to be determined;
 - (iii) any day on which any other person informs Thames Water that he has become the new occupier of such premises.

Metered supplies - adjustment of charges

12 (1) Where a meter has been tested and is shown to have registered incorrectly (or not at all) Thames Water shall be entitled to make an estimate of the quantity supplied and adjust the charges in accordance with the Regulations. This could lead to either a refund being made to the consumer, or an invoice to the consumer for any balance of charges that may be due.

(2) Where a meter is connected to a supply of water, or Thames Water has given notice of its intention to connect a meter, to premises:

- (i) which do not appear in the valuation list; and
- (ii) in respect of which a notional net annual value has not been determined by Thames Water; and
- (iii) in respect of which no account has been rendered by Thames Water to the current occupier for any billing period prior to the installation of the meter; Thames Water shall be entitled to render an account for any billing period prior to the installation of the meter based on an estimate by Thames Water of the volume of water supplied.

- (3) (i) Where a leak has been detected downstream of the meter on a metered supply to a house and where the leaking pipe has been repaired within six weeks of that leak coming to the attention of Thames Water, the consumer's account will be credited with a leakage allowance calculated in accordance with the provisions of paragraph (ii) of this sub-clause.
- (ii) The leakage allowance will be calculated by Thames Water (whose decision shall be final) on the basis of Thames Water's estimate of water lost through leakage. Thames Water shall base their estimate on past use at the relevant premises. Where there is no such record, the estimate will be based on typical water use for similar premises, but may be reviewed by Thames Water at a later date, and entirely at their discretion, on the basis of future water use at the relevant premises.
- (iii) The leakage allowance will be paid for the period commencing with the date the leak started and ending on the date the leak is repaired, for a period no longer than 2 years PROVIDED ALWAYS that:
- a) Thames Water must be satisfied that there is reasonable evidence to establish the start and end dates of the leak; and
 - b) a claim for the leakage allowance is submitted in writing within three months of the date the leak is repaired.
- (iv) Where a leakage allowance has been granted under this sub-clause 12(3), no further allowance will be granted to the same consumer for any subsequent leaks on the same pipe.

Payment methods

- 13 (1) Subject to the following provisions of this clause, payment for any charges made under this scheme may be made by any of the following methods and by the defined frequencies:

Frequency of payment:

- Payment in full for each bill: You can choose to use any of our payment methods
- Payment in monthly instalments: You can choose to pay by Direct Debit, via "local in store payment services", by Home Banking, by Debit/Credit card or by setting up standing order at your bank
- Payments: You can chose to pay via "local in store payment services" by Home Banking, by Debit/Credit card

Methods of payment:

- Direct Debit. To set up a Direct Debit, visit thameswater.co.uk/directdebit, or call us on 0800 980 8800
- Debit/Credit card. Online at thameswater.co.uk/payingyourbill or by calling us on 0800 980 8800
- Local in store payment facility (displaying the PayPoint sign). We recommend that you ask for a receipt. The maximum single transaction is £350
- Home banking facility/BACS - Quote your Thames Water account number as a reference and send to Thames Water account - 00286125, sort code - 57-27-53
- At a bank - if you pay at your own bank, this service is usually free of charge. Other banks may make a charge for this service
- By post - send your cheque or postal order to Thames Water Utilities Ltd, PO Box 234, Swindon, SN38 3TW
- In cash at a Post Office - subject to the Post Office's processing fee

(2) Where a consumer owes arrears of more than £50 and receives the following benefits as at 1 April 2020 - Income Support, Income Based Job Seekers Allowance, Pensions Credit, Universal Credit or Employment Support Allowance (ESA), it may be possible to pay the arrears by direct payments. This means that agreed amounts would be deducted from the consumer's benefits and paid to Thames Water direct. Any consumer who wishes to join this scheme can apply online at thameswater.co.uk/waterdirect or contact us on 0800 980 8800.

(3) It should be noted that where a customer's charges are payable by a third party (for example, the customer's Landlord), then the range of available payment methods may differ from those set out in this scheme (for example, they may be collected by the Landlord together with the rent payments).

(4) Where payment has been tendered by cheque or Direct Debit which has not been honoured by the bank on which it has been drawn the consumer will be liable to pay an additional administration charge as set by Thames Water from time to time.

Charge variations for empty properties

- 14 (1) Subject to sub-clause (4) no charges will be payable in respect of:
- (a) unmetered supplies under clause 4; and
 - (b) fixed charges for metered supplies in respect of any period during which the consumer is able to demonstrate to the reasonable satisfaction of Thames Water that the premises are both unoccupied and unfurnished.

PROVIDED ALWAYS that should Thames Water become aware that water is being used at that premises (which includes any usage by way of leakage) all relevant charges will be payable.

- (2) Unoccupied premises will not be regarded as unfurnished for the purposes of 14 (1) if they are:

- (a) subject to building or renovation works;
- or
- (b) newly built premises prior to transfer of ownership from the builder.

- (3) No charges will be payable in respect of:

- (a) unmetered supplies under clause 4; and
- (b) fixed charges for metered supplies under clause 5(1)(b) in respect of any continuous period of three months or more during which the consumer is able to demonstrate to the reasonable satisfaction of Thames Water that the premises are unoccupied and the customer is living in a care home or nursing home.

(4) The above charging variations for empty properties will only apply to the period during which this scheme is in force and must be claimed by the customer. No claim will be allowed for any period more than 6 months prior to the date of the claim.

WaterHelp (previously known as WaterSure Plus)

- 15 (1) Subject to sub-clauses 15(2), (3) and (4), the following consumers will only be liable to pay the WaterHelp Tariff for charges payable under clauses 4 and 5:

In the case of supplies to a house, where the household receives a gross income (after deducting any payments in respect of disability benefits, including disability living allowance, personal independent payment or attendance allowance as well as the disability element of other benefits and allowances), which:

- (i) for those living outside of London Boroughs, is less than the income threshold referred to in the current HM Treasury policy paper covering

“Tax and Tax Credit Rates and Thresholds” and entitled “First threshold for those entitled to child tax credit only” or any applicable amended figure published by HM Treasury; or

- (ii) for those living within a London Borough, the annualised equivalent of the hourly London Living Wage as determined by the Living Wage Foundation and based on 1,820 hours wage.

(2) WaterHelp will only apply to consumers who have demonstrated their eligibility to the satisfaction of Thames Water by completing an application form and providing any other additional information that may be relevant to demonstrate eligibility.

WaterHelp will apply for the period covered by this Charges Scheme, but the eligibility will be assessed on the basis of income during the three month period preceding the submission of the questionnaire.

(3) In the case of charges payable under clause 5, where a consumer has demonstrated to the satisfaction of Thames Water that they meet the eligibility criteria for both the WaterSure tariff and WaterHelp, they will be charged either the WaterSure tariff or WaterHelp, whichever is the lower.

(4) In the case of charges payable under clauses 4 and 5, where a consumer is not eligible for the WaterHelp Tariff, but on 31 March 2019 was eligible for the WaterSure Plus Tariff, as defined by Thames Water’s Water Supply Charges Scheme 2018, that consumer will continue to be charged on the basis of the WaterSure Plus Tariff for as long as they continue to satisfy the criteria that applied to that tariff.

Further information

- 16 (1) Any person who plans to move to a property within the Thames Water area may obtain information on the basis on which charges will be payable for that property by either:
- (a) calling on telephone number 0800 316 9800; or
 - (b) writing to Thames Water at PO Box 436, Swindon SN38 1TU; or
 - (c) visiting thameswater.co.uk and completing an enquiry form.

Wastewater Charges Scheme 2020

- 1 This scheme, which revokes all previous Wastewater Charges Schemes made by Thames Water and which may be referred to as the Thames Water Utilities Limited Wastewater Charges Scheme 2020, is made by Thames Water Utilities Limited under Section 143 of the Act and shall operate from 1 April 2020 until 31 March 2021 inclusive.

Thames Water is required by the Licence and under the terms of an agreement with the Infrastructure Provider to make payments to the Infrastructure Provider in respect of costs incurred by the Infrastructure provider relating to the Thames Tideway Tunnel. The tariffs set out in the Charges Schedule have been calculated to include provision for Thames Water to finance this obligation.

Interpretation

- 2 (1) Subject to sub-clause (2), the Interpretation Act 1978 shall have effect for the interpretation of this scheme as it has effect for the interpretation of an Act of Parliament;

(2) In this scheme, unless the context otherwise requires:-

“the Act”

means the Water Industry Act 1991 including any statutory amendments whether made before or after the date of this scheme;

“assessed household charge”

means a fixed charge, split into bands, which relates either to a single occupier or the number of bedrooms in a house. This is set out in the Charges Schedule;

“billing period”

means a period of time determined at the discretion of Thames Water and in respect of which Thames Water may submit a bill to the consumer for any charges made under this scheme in respect of connected premises;

“Charges Schedule”

means the schedule of charges fixed by Thames Water for the financial year 2020-21, which forms part of this scheme;

“charging area”

means an area determined by Thames Water to reflect in its charges the differences in the average use of the service for various types of house and broad variations in net annual value for similar properties throughout the wastewater area of Thames Water;

“connected premises”

means any premises which are (a) drained by a sewer or drain connecting, either directly or through an intermediate sewer or drain, with a public sewer provided by Thames Water for foul water or surface water or both, or (b) occupied by persons having the right to use facilities which drain to a sewer or drain so connecting;

“consumer”

means the person who is for the time being the person on whom the liability to pay charges to Thames Water in respect of sewerage services would fall;

“customer”

means the person for whom a service is performed, facilities are provided or rights are made available in respect of connected premises in exercise of Thames Water’s functions under Section 94 of the Act;

“domestic garage, car space or store area”

means any garage, car space or store area used wholly or partly as a domestic garage, car space or store area or intended for such use;

“the due date”

means a date which is 50 calendar days after the service of a Measured Charges Notice on Thames Water;

“house”

means a dwellinghouse, whether a private dwellinghouse or not, and includes any part of a building if that part is occupied as a separate dwellinghouse;

“Infrastructure Provider”

means the company designated by the Secretary of State or the Water Services Regulation Authority to be the infrastructure provider responsible for the Thames Tideway Tunnel Project in accordance with Regulation 8(1) of the Water Industry (Specified Infrastructure Projects) (English Undertakers) Regulations 2013;

“the Licence”

means the Instrument of Appointment dated August 1989 under Sections 11 and 14 of the Water Act 1989 whereby the Secretary of State for the Environment appointed Thames Water to be the water undertaker and the sewerage (wastewater) undertaker for the areas respectively described therein and includes any amendments whether made before or after the date of this scheme;

“Measured Charges Notice”

means a written notice served on Thames Water under the provisions of Section 144A of the Act;

“no access charge”

means a charge that is applied to consumers where the customer or consumer has denied Thames Water access for the purpose of fitting, maintaining, replacing or reading a meter;

“the Regulations”

means the Water (Meters) Regulations 1988 (SI. 1988(1048)) as amended;

“relevant abstraction licence”

shall mean a licence under the Water Resources Act 1991 or under the former Water Resources Act 1963 as amended by the Water Act 1989 to abstract water which authorises water abstracted in pursuance of such licence to be used on land consisting of connected premises in the occupation of the licence holder;

“service pipe”

means a service pipe within the meaning given in the Act;

“Thames Water”

means Thames Water Utilities Limited;

“valuation list”

means the last valuation list published under Part V of the General Rate Act 1967 (including any published amendments);

“Vulnerable customer”

means any customer who comes within a class of persons prescribed by any Regulations made under sub-section 143A(3) of the Act. Thames Water’s arrangements for implementing any such Regulations are described in the document headed “Provisions Under Regulations To Protect Vulnerable Customers”;

“WaterHelp”

means the reduced tariff for eligible consumers which is referred to in clause 15 and applies to charges payable under clauses 4, 5, 6 and 7. This tariff is set at 50% of the charges that are payable under clauses 4, 5, 6 and 7 by consumers who are not eligible for WaterHelp.

NB

Please note that WaterHelp is the new name for what was previously called WaterSure Plus. Some customers may still see the WaterSure Plus name being used on bills issued under this Charges Scheme, but the tariff criteria and benefits are the same;

“Watersure tariff”

means the maximum charge that a Vulnerable customer can be obliged to pay and which is set out in the Charges Schedule.

General

- 3 (1) It is intended that the charges to be made under this scheme will provide the income necessary to finance the wastewater and sewage disposal functions of Thames Water. These include elements of foul water, surface water and highway drainage. These charges will be fixed with due regard to the principles laid down in the Act and in Condition E of the Licence;
- (2) The charges under this scheme are levied in accordance with the provisions of the Act and the Licence and any taxes (including VAT) imposed by law on the making of such charges shall be recoverable in addition to such charges.

Wastewater charges where water supply to connected premises is unmetered

- 4 (1) Subject to the succeeding provisions of this scheme, there shall be payable to Thames Water in respect of each connected premises an amount equal to the sum of the charges referred to in paragraphs (a) and (b) below, PROVIDED ALWAYS that the amount payable under this sub-clause 4(1) shall be the assessed household charge where any of the following applies:
- (i) where a consumer has exercised a statutory right to elect for charging by reference to volume and the water undertaker has determined that fitting a meter would either not be reasonably practicable or incur unreasonable expense: or
 - (ii) where the connected premises is not within the water supply area of Thames Water and the relevant water undertaker has raised water supply charges on an equivalent basis to the assessed household charge;
 - (iii) where the consumer is liable to pay the assessed household charge under the provisions of sub-clause 9(5) of the Water Supply Charges Scheme 2020 (or equivalent clause under any earlier charges scheme).
- (a) Rate based charge

The amounts in the pound shown in the Charges Schedule multiplied by the net annual value of the connected premises;

- (b) Graduated fixed charge
- (i) In the case of each service pipe providing a supply to connected premises other than a house, a graduated fixed charge or charges, the amount of which is shown in the Charges Schedule fixed by reference to the size of each relevant service pipe (including where appropriate a notional pipe size).
 - (ii) In the case of each service pipe providing a supply to a house, a fixed charge, the amount of which is shown in the Charges Schedule fixed by reference to a service pipe size of up to 15mm.

NB

Such fixed charges will apply only in respect of connected premises with a net annual value (or notional net annual value fixed under sub-clause (5) as the case may be) equal to or exceeding £50.

(2) The amount in the pound fixed annually by Thames Water for the purposes of sub-clause (1)(a) is different for each charging area.

(3) Subject to the following provisions of this clause, for the purposes of any rate based charge the net annual value of any connected premises (or the rateable value in any case where a rateable value but no net annual value appears) shall be taken to be that value which appeared in the last published valuation list.

(4) In the case of connected premises with both an unmetered water supply and a metered water supply and where such connected premises are the subject of a single entry in the valuation list, Thames Water may apportion the net annual value thereof and charge the consumer rate based charges in respect of such connected premises on a proportion only of the net annual value.

(5) In the case of any connected premises not appearing in the valuation list or having no value appearing therein, any rate based charge shall be based on a notional net annual value which shall be determined by Thames Water and may be revised by them. The notional net annual value shall be determined by reference to properties on the valuation list of a similar size and in the same charging area. It will be based on information provided to Thames Water by the consumer. In the absence of such information and until such time as the information is received, Thames Water will apply a default value based on their best estimate in the light of whatever relevant information is reasonably available.

(6) Unless Thames Water otherwise agrees, where there is communication, otherwise than by a highway, between buildings or parts of buildings in the occupation of the same customer, those buildings or parts of buildings shall be treated, for the purpose of charging the rate based charge, as one building having a net annual value equal to the aggregate of their net annual values.

(7) Except where they are served by a metered supply, charges for each domestic garage, car space or storage area (“the premises”) shall be payable to Thames Water as follows:

- (i) where the premises are within the water supply area of Thames Water, there shall be a single annual charge as shown in the Charges Schedule.
- (ii) where the premises are within the water supply area of another company, there shall be a single annual rate based charge calculated in the same manner as sub-clause 4(1a) above.

(8) Where the occupier of any premises (“the occupied premises”) which are not connected premises has the right to use the sanitary facilities in other connected premises (where Thames Water does not charge for wastewater services on a metered basis) by virtue of his occupation of the occupied premises, there shall be payable to Thames Water in respect of the occupied premises a sum calculated in accordance with the preceding provisions of this clause.

Wastewater charges where water supply to connected premises is metered

5 (1) Where the charges for water have been fixed by Thames Water or another water undertaker by reference to volume, there shall be payable to Thames Water an amount equal to the sum of the following charges: the volume charge in (a) below; plus the graduated fixed charge in (b) below PROVIDED ALWAYS

- where Thames water has attempted to maintain, replace or read a water meter using its statutory powers and the customer or consumer has denied access in order to carry out such works, Thames Water reserves the right to charge the customer on the basis of the no access charge; and
- subject to the provisions of sub-clause 15, where the Customer is a Vulnerable Customer, the maximum amount payable under this sub-clause 5(1) shall be the WaterSure Tariff as administered by the WaterSure Scheme.

(a) Volume charge

The amount produced by multiplying the volume of water supplied as measured by a meter used by Thames Water or other water undertaker or, as estimated (where estimates are permitted under the relevant charges scheme) by a rate per cubic metre as shown in the Charges Schedule. However, where it is shown to the satisfaction of Thames Water that more than ten percent of the measured quantity (less any quantity which in Thames Water’s opinion has been lost through leakage) is not discharged to a public sewer that volume shall for the purposes of this calculation be reduced by such quantity from the date on which this was brought to the attention of Thames Water in writing.

Thames Water may review the validity of the allowance given under this clause 5(1)(a) at any time and adjust the consumer's account to reflect any change in circumstances.

- (b) Graduated fixed charge
 - (i) A graduated fixed charge in respect of each pipe which is used for the water supply to the customer, the amount of which is shown in the Charges Schedule.
 - (ii) Where Thames Water is satisfied that of the water supplied to the relevant connected premises a quantity is not discharged to a public sewer such that the pipe size could be at least one size smaller, then the fixed charge may be abated at the discretion of Thames Water.

Wastewater charges where there is only a surface water discharge from connected premises to sewer

- 6 With the exception of domestic garages, car spaces and storage areas charged under clause 4(7) there shall be payable to Thames Water in respect of each connected premises where surface water only is discharged from such premises to a public sewer, a fixed charge only, the amount of which is shown in the Charges Schedules. Such fixed charge will apply only in respect of premises with a net annual value (or notional net annual value fixed under sub-clause 4(5) as the case may be) equal to or exceeding £50.

Aggregation of charges

- 7 If the water supply to any connected premises is on a basis falling under more than one of clauses 4, 5, and 6 then the charges payable shall be the sum of the charges provided for under the relevant clauses.

Progressive metering

- 8 (1) Thames Water may at its discretion resolve at any time in respect of any connected premises that consumers may be required (upon not less than twenty eight days notice in writing being given to the consumer) to pay wastewater charges by reference to the volume of water supplied to the connected premises and on the terms contained in clause 5 PROVIDED ALWAYS that Thames Water may not begin to fix charges by reference to volume in respect of any connected premises until such time as the consumer is also liable to take and pay for water supplied to the connected premises (whether or not by Thames Water) by reference to the volume supplied. Until such liability is established, then except where either sub-clause 8(2) or 8(5) applies, the consumer will be liable to pay charges under this scheme on the same basis as his liability under the relevant Thames Water water supply charges scheme (WSCS).

(2) Where Thames Water has attempted under the provisions of this clause 8 to meter a house that is already receiving a supply of water from Thames Water, or has attempted to maintain, replace or read a meter which serves an existing metered customer, and the consumer or the customer has denied access to

Thames Water; Thames Water reserves the right to transfer the consumer to the no access charge.

(3) Where the connected premises is a house that is not within the supply area of Thames Water and the relevant water undertaker has attempted to meter the connected premises or has attempted to maintain, replace or read a meter which serves the connected premises and the consumer or the customer has denied access for this purpose; Thames Water reserves the right to transfer the consumer to the no access charge.

(4) The following sections, 8(5), 8(6) and 8(7) apply to connected premises within the South East Water water supply area where Thames Water supplies the wastewater service and South East Water bills on Thames Water's behalf.

(5) Where:

- (a) the connected premises is a house within the water supply area of South East Water Ltd. (SEW); and
- (b) SEW has fitted a meter under a programme for the fixing of charges by reference to volume, as specified in SEW's water resources management plan published under section 37B(8)(a) of the Act, the consumer will be liable to pay charges under this scheme on the same basis as clause 9 of the Water Supply Charges Scheme 2020 PROVIDED ALWAYS that the consumer may give notice to SEW that for the first five metered bills after the meter has been fitted, they wish to pay on the basis set out in sub-clause 9(3) which is an equivalent basis to what SEW refer to as their 'phase in option'.

(6) Phase in Option

- (i) For the first bill which includes a calculation by reference to volume, the consumer will pay the lower of the charge calculated on the terms contained in clause 5 ("the metered charge") and the charge calculated on the terms contained in clause 4 ("the unmetered charge").
- (ii) For the second metered bill the consumer will pay the lower of the metered charge and the unmetered charge plus 25% of the difference between the metered charge and the unmetered charge.
- (iii) For the third metered bill the consumer will pay the lower of the metered charge and the unmetered charge plus 50% of the difference between the metered charge and the unmetered charge.
- (iv) For the fourth metered bill the consumer will pay the lower of the metered charge and the unmetered charge plus 75% of the difference between the metered charge and the unmetered charge.

- (v) For the fifth metered bill and subsequent bills the consumer will pay the full metered charge.

NB

To apply for the “phase in option” consumers should call the SEW Metering Helpline on 0333 000 0001 or visit www.southeastwater.co.uk

(7) Where:

- (a) the connected premises is a house within the water supply area of Southern Water Services Ltd. (SW); and
- (b) SEW has fitted a meter under a programme for the fixing of charges by reference to volume, as specified in SEW’s water resources management plan published under section 37B(8)(a) of the Act, the consumer will be liable to pay charges under this scheme on the same basis as clause 9 of the Water Supply Charges Scheme 2020 excepting only that the option under clause 9(5)(c) will relate to the date of the most recent bill comparison letter and not the date of the meter activation letter.

Payment of charges where water supply to connected premises is unmetered

- 9 (1) The consumer’s liability for rate based charges, together with fixed charges and charges for domestic garages, car spaces and store areas, is in respect of each day of the customer’s occupation of the connected premises. Thames Water will issue bills for such charges in respect of a full year, except in cases where the customer’s occupation commenced on a day other than 1 April, in which case the consumer shall be liable to pay a time apportioned part only of the charges due for the relevant year. However, where in any year a consumer who has paid charges to be paid under clause 4 gives notice to Thames Water that he (or the customer) intends to vacate those premises, he shall be entitled to recover a time apportioned part of those charges paid by him in respect of that year as from the date on which he (or the customer) ceases to be in occupation of such premises.
- (2) Charges for unmetered supplies are payable in full on 1 April at the beginning of the charging year, except in cases where the customer’s occupation commenced on a day other than the 1 April, in which case they will be payable on a day advised by Thames Water. However, consumers may choose to pay their charges (following giving notice to Thames Water to that effect) by one of the following frequencies:
 - (a) two, eight, ten or twelve instalments on dates to be agreed with Thames Water,
 - (b) consumers who find it easier to pay more frequently may do so by agreement with Thames Water.
- (3) Where the consumer has chosen to pay by instalments and any such instalment is not paid within twenty one days of the date it is payable, then the

whole of the annual charges then remaining unpaid shall thereupon become payable.

(4) Persons Chargeable

- (a) The person responsible for payment of charges under this scheme shall be the occupier of the connected premises except where some other person is liable by agreement with Thames Water.
- (b) Where there are two or more people occupying the connected premises, the occupiers shall be jointly and severally liable for the payment of the charges.
- (c) Where the relevant connected premises to which the supply is made are divided into bed-sitting rooms with communal facilities, the owner of the premises shall be regarded as the occupier and be liable for charges except where some other person has paid the charges or is liable by agreement with Thames Water.

(5) Where in any year a consumer who has paid the charges to be paid under clause 4 gives notice to Thames Water that he intends to vacate connected premises, he shall be entitled to recover from Thames Water a time apportioned part of those charges paid by him in respect of that year as from the date on which he ceases to be in occupation of such premises.

(6) Where in any charging year a consumer enters into any formal insolvency procedure, Thames Water will apportion all rate based charges on a daily basis up to the day immediately preceding the effective date of the relevant insolvency procedure ("the insolvency date"). Any apportioned charges after the insolvency date will not be affected by the insolvency procedure.

Payment of charges for metered supplies

- 10 (1) The charges calculated for metered supplies shall be due and payable when the volume of water supplied has been ascertained and a bill in respect thereof issued; provided that consumers may choose to pay such charges (following the service of notice to Thames Water to that effect) by monthly instalments (the actual date payable to be agreed with Thames Water). The instalments will be calculated by Thames Water to cover charges which Thames Water estimates will be accrued between bills and adjusted accordingly after every other occasion when a meter reading has been taken. Consumers who find it easier to pay more frequently may do so by agreement with Thames Water.
- (2) Where the consumer has chosen to pay by instalments and any such instalment is not paid by the date it is payable, then the whole of the metered charges then remaining unpaid shall thereupon become payable.
- (3) The record by the meter of the volume of water supplied shall be taken by Thames Water (except where the water is not supplied by Thames Water) as nearly as practicable on the corresponding day of each billing period.

Where a reading is not taken for any reason Thames Water may calculate a bill based on an estimate of the volume of water supplied. Where a bill has been calculated on the basis of such an estimate, the consumer may read the meter himself and provide the reading to Thames Water. Provided the consumer provides such a meter reading within 28 days of the date of the bill, Thames Water shall issue an amended bill based on that reading. A billing period shall not normally exceed one year.

(4) Persons Chargeable

- (a) The person responsible for payment of charges under this scheme shall be the occupier of the connected premises except where some other person is liable by agreement with Thames Water.
- (b) Where there are two or more people occupying the connected premises, the occupiers shall be jointly and severally liable for the payment of the charges.
- (c) Where the relevant connected premises are divided into bed sitting rooms with communal facilities, the owner of the premises shall be regarded as the occupier and be liable for charges except where some other person has paid the charges or is liable by agreement with Thames Water.

(5) Where a meter is fitted for charging purposes in premises during a charging year in respect of which the consumer has already received an account for rate based charges, the consumer will only be liable to pay a time apportioned part of the previous account calculated up to but excluding the date on which the meter is fitted. Where the previous account has been paid in full or in part, the consumer will be entitled to recover any payment made over and above the amount for which he is liable by virtue of the preceding provisions of this sub-clause. From the date of fitting the consumer shall be liable for the charges to be paid under sub-clause (2).

(6) Where a billing period is for a period during which a new volume charge is fixed by Thames Water, Thames Water may calculate the bill on an apportioned basis whereby some of the volume of water supplied is charged at the old rate with the balance of the water supplied charged at the new rate. Thames Water may calculate the apportionment based on an estimate by Thames Water of the volume of water supplied prior to the commencement of the new volume charge.

(7) Where the consumer is also the occupier of the relevant premises Thames Water may continue to hold him responsible for the payment of metered charges after he has ceased to be in occupation if:

- (a) he fails to inform Thames Water (or other relevant undertaker) of the ending of his occupation of such premises at least two working days before he ceases to occupy them; and
- (b) the charges are in respect of a period ending no later than whichever of the following first occurs after he ceases to occupy such premises; that is to say:

- (i) he informs Thames Water (or other relevant water undertaker) of the ending of his occupation of such premises less than two working days before, or at any time after, he ceases to occupy them, the twenty-eighth day after he so informs them;
- (ii) any date on which any meter would normally have been read in order for the amount of the charges to be determined;
- (iii) any date on which any other person informs Thames Water (or other relevant water undertaker) that he has become the new occupier of such premises.

Metered supplies - adjustment of charges

11 (1) Where a meter has been tested and is shown to have registered incorrectly (or not at all) Thames Water shall be entitled to make an estimate of the quantity supplied and adjust the charges in accordance with the Regulations. This could lead to either a refund being made to the consumer, or an invoice to the consumer for any balance of charges that may be due.

(2) Where a meter is connected to a supply of water, or Thames Water has given notice of its intention to connect a meter to premises:

- (i) which do not appear in the valuation list; and
- (ii) in respect of which a notional net annual value has not been determined by Thames Water; and
- (iii) in respect of which no account has been rendered by Thames Water to the current occupier for any billing period prior to the installation of the meter; Thames Water shall be entitled to render an account for any billing period prior to the installation of the meter based on an estimate by Thames Water of the volume of water supplied.

(3) (i) Where a leak has been detected downstream of the meter on a metered supply to a house and where the leaking pipe has been repaired within six weeks of that leak coming to the attention of Thames Water, the consumer's account will be credited with a leakage allowance calculated in accordance with the provisions of paragraph ii) of this sub-clause 13(3).

- (ii) The leakage allowance will be calculated by Thames Water (whose decision shall be final) on the basis of Thames Water's estimate of water lost through leakage. Thames Water shall base their estimate on past use at the relevant premises. Where there is no such record, the estimate will be based on typical water use for similar premises, but may be reviewed by Thames Water at a later date, and entirely at their discretion, on the basis of future water use at the relevant premises.

- (iii) The leakage allowance will be granted for a period commencing with the billing period prior to the billing period in which the leak came to Thames Water's attention and ending on the date the leak is repaired.
- (iv) "Where a leakage allowance has been granted under this sub-clause 13(3), no further allowance will be granted to the same consumer for any subsequent leaks on the same pipe."

Other charges

- 12 (1) For services performed, facilities provided or rights made available in pursuance of the wastewater and sewage disposal functions of Thames Water, other than services, facilities or rights which a customer is entitled to demand in respect of connected premises, Thames Water may make such charges to persons in receipt of or benefiting from such services, facilities or rights as appear to it to be appropriate having regard to cost, such charges to be payable at such times as shall be fixed by Thames Water.

Payment methods

- 13 (1) Subject to the following provisions of this clause, payment for any charges made under this scheme may be made by any of the following methods and by the defined frequencies:

Frequency of payment:

- Payment in full for each bill: You can choose to use any of our payment methods
- Payment in monthly instalments: You can choose to pay by Direct Debit, via local in store payment services, by Home Banking, by Debit/Credit card or by setting up standing order at your bank
- Payments: You can choose to pay via local in store payment services, by Home Banking, by Debit/Credit card

Methods of payment:

- Direct Debit. To set up a Direct Debit, visit thameswater.co.uk/directdebit, or call us on 0800 980 8800
- Debit/Credit card. Online at thameswater.co.uk/payingyourbill or by calling us on 0800 980 8800
- Local in store payment services facility (displaying the PayPoint sign). We recommend that you ask for a receipt. The maximum single transaction is £350
- Home banking facility/BACS - Quote your Thames Water account number as a reference and send to Thames Water account - 00286125, sort code - 57-27-53

- At a bank - if you pay at your own bank, this service is usually free of charge. Other banks may make a charge for this service
- By post - send your cheque or postal order to Thames Water Utilities Ltd, PO Box 234, Swindon, SN38 3TW
- In cash at a Post Office - subject to the Post Office's processing fee

(2) Where a consumer owes arrears of more than £50 and receives the following benefits as at 1 April 2020 - Income Support, Income Based Job Seekers Allowance, Pensions Credit, Universal Credit or Employment Support Allowance (ESA), it may be possible to pay the arrears by direct payments. This means that agreed amounts would be deducted from the consumer's benefits and paid to Thames Water direct. Any consumer who wishes to join this scheme can apply online at thameswater.co.uk/waterdirect or contact us on 0800 980 8800.

(3) It should be noted that where a customer's charges are payable by a third party (for example the customer's Landlord), then the range of available payment methods may differ from those set out in this scheme (for example they may be collected by the Landlord together with the rent payments).

(4) Where payment has been tendered by cheque or direct debit which has not been honoured by the bank on which it has been drawn the consumer will be liable to pay an additional administration charge as set by Thames Water from time to time.

Charge variations for empty properties

- 14 (1) Subject to sub-clause (4) no charges will be payable in respect of:
- (a) unmetered supplies under clause 4: and
 - (b) fixed charges for metered supplies in respect of any period during which the consumer is able to demonstrate to the reasonable satisfaction of Thames Water that the premises are both unoccupied and unfurnished.

PROVIDED ALWAYS that should Thames Water become aware that water is being used at that premises (which includes any usage by way of leakage) all relevant charges will be payable.

(2) Unoccupied premises will not be regarded as unfurnished for the purposes of 20 (1) if they are:

- (a) subject to building or renovation works;
- or
- (b) newly built premises prior to transfer of ownership from the builder.

(3) Subject to sub-clause (4) no charges will be payable in respect of:

- (a) unmetered supplies under clause 4; and
- (b) fixed charges for metered supplies under clause 5 (1)(b) in respect of any continuous period of three months or more during which the consumer is able to demonstrate to the reasonable satisfaction of Thames Water that the premises are unoccupied and the customer is living in a care home or nursing home.

(4) The above charging variations for empty properties will only apply to the period during which this scheme is in force and must be claimed by the customer. No claim will be allowed for any period more than six months prior to the date of the claim.

Surface Water Rebates

(5) In cases where the consumer (including those who pay the household assessed charge) has established to the satisfaction of Thames Water that no surface water from connected premises drains to a public sewer, the wastewater charges shall be reduced by the amount shown in the Charges Schedule.

NB

Thames Water does not consider it appropriate to reduce charges where some (but not all) surface water from connected premises drains to a public sewer. If at some future date Thames Water introduces surface water drainage charging on a site areas basis, this policy will be reviewed.

(6) Any rebate will be subject to a maximum six year period.

NB

Telephone rebate claims will be accepted in the case of houses Claim forms may be obtained by calling the customer centre on 0800 980 8800. Any information provided by the consumer may need to be verified. Thames Water's procedure for receiving, validating and applying such claims is described in the information that is sent with the claim form.

WaterHelp (previously known as WaterSure Plus)

- 15 (1) Subject to sub-clauses 15(2), (3) and (4), the following consumers will only be liable to pay the WaterHelp Tariff for charges payable under clauses 4 and 5:

In the case of supplies to a house, where the household receives a gross income (after deducting any payments in respect of disability benefits, including disability living allowance, personal independent payment or attendance allowance as well as the disability element of other benefits and allowances), which:

- (i) for those living outside of London Boroughs, is less than the income threshold referred to in the current HM Treasury policy paper covering “Tax and Tax Credit Rates and Thresholds” and entitled “First threshold for those entitled to child tax credit only” or any applicable amended figure published by HM Treasury; or
- (ii) for those living within a London Borough, the annualised equivalent of the hourly London Living Wage as determined by the Living Wage Foundation and based on 1,820 hours wage.

(2) WaterHelp will only apply to consumers who have demonstrated their eligibility to the satisfaction of Thames Water (or the water company billing a customer on Thames Water’s behalf) by completing an application form and providing any other additional information that may be relevant to demonstrate eligibility.

WaterHelp will apply for the period covered by this Charges Scheme, but the eligibility will be assessed on the basis of income during the three month period preceding the submission of the questionnaire.

(3) In the case of charges payable under clause 5, where a consumer has demonstrated to the satisfaction of Thames Water that they meet the eligibility criteria for both the WaterSure tariff and WaterHelp, they will be charged either the WaterSure tariff or WaterHelp, whichever is the lower.

(4) In the case of charges payable under clauses 4 and 5, where a consumer is not eligible for the WaterHelp Tariff, but on 31 March 2019 was eligible for the WaterSure Plus Tariff, as defined by Thames Water’s Water Supply Charges Scheme 2018, that consumer will continue to be charged on the basis of the WaterSure Plus Tariff for as long as they continue to satisfy the criteria that applied to that tariff.

Further information

- 16 (1) Any person who plans to move to a property within the Thames Water area may obtain information on the basis on which charges will be payable for that property by either:
 - (a) calling on telephone number 0800 316 9800; or
 - (b) writing to Thames Water at PO Box 436, Swindon SN38 1TU; or
 - (c) visiting thameswater.co.uk and completing an enquiry form.

The role of CCWater and how to contact them

The Consumer Council for Water (CCWater) provides a strong voice for water and wastewater consumers in England and Wales and keeps in close contact with companies that provide these services as well as the consumers themselves.

You can visit their website www.ccwater.org.uk, call them on 0300 034 2222, or write to them at Consumer Council for Water, 1st Floor, Victoria Square House, Victoria Square, Birmingham, B2 4AJ or e-mail to enquiries@ccwater.org.uk

Our complaints procedure

A copy of our complaints procedure “Our Quality Promise” can be found at thameswater.co.uk/customercommitment, under ‘If you’re unhappy with our service’, or contact us on 0800 316 9800.

We are committed to providing you with the best possible service. This commitment is backed up by our Customer Guarantee Scheme. We also offer a comprehensive range of Extra Care Services, at no extra charge, for customers requiring additional assistance. For more information, visit thameswater.co.uk/extracare or contact us on 0800 009 3652.

Household Charges Schedule 2020-21

Metered water and wastewater charges

Table 1 Metered fixed charges per year based on pipe size

Pipe size (mm)	Pipe size (inches)	Water		Wastewater	
		Tariff (Pre-rebate)	Charge (Post-rebate)	Full	Abated*
Single households	N/A	£19.53	£19.26	£63.56	£37.16
Bulk metered households					
12/15	0.5	£0.00	£0.00	£42.45	£16.05
20/22	0.75	£0.00	£0.00	£126.98	£55.15
25/28	1.00	£0.00	£0.00	£227.03	£98.76
30/32/35	1.25	£0.00	£0.00	£354.03	£153.92
40/42	1.50	£0.00	£0.00	£509.23	£220.61
50/54	2.00	£0.00	£0.00	£904.28	£392.50
65	2.50	£0.00	£0.00	£1,414.78	£614.40
75/80	3.00	£0.00	£0.00	£2,035.62	£883.78
100	4.00	£0.00	£0.00	£3,619.71	£1,571.27
125	5.00	£0.00	£0.00	£5,655.34	£2,455.06
150	6.00	£0.00	£0.00	£8,143.71	£3,535.05
200	8.00	£0.00	£0.00	£14,477.57	£6,285.12
250	10.00	£0.00	£0.00	£22,620.01	£9,820.18
300	12.00	£0.00	£0.00	£32,573.55	£14,141.50

* Where a single household property does not discharge surface water to our sewers, they can claim an abatement of £26.40. Where there are a number of households in a block and the charges for the block are paid by reference to a bulk meter, the fixed charge based on pipe size will be calculated by reference to the figures under “Bulk metered households” above. In addition to the charge based on pipe size, a fixed retail services charge of £19.53 for water pre-rebate, £19.26 for water post-rebate and £21.11 for wastewater will also be applied to the block of bulk metered households.

Table 2 Volumetric charges (All rates in p/m³)

Households		
Consumption		Volume charge (p/m ³)
Water Supply	Tariff (Pre-rebate)	145.70 pence
	Charge (Post-rebate)	138.18 pence
Wastewater Supply		89.63 pence

Table 3 Fixed charge per year for surface water drainage only

	Wastewater
	Surface water drainage only
All households	£42.45

Unmetered water and wastewater charges

The water and wastewater services bill is calculated by applying a 'rate per pound' to the rateable value (RV) of your property. There is a different rate for water and wastewater services, each expressed as pence per pound (of RV) and disclosed in Table 5. In addition, a yearly 'fixed charge' is applied; disclosed in Table 4.

Table 4 Fixed charges - unmetered per year

	Water		Wastewater	
	Tariff (Pre-rebate)	Charge (Post-rebate)	Full	Abated*
All households	£36.45	£35.26	£61.21	£34.81

* Where a household customer does not discharge surface water to our sewers, they can claim an abatement of £26.40.

Table 5 Unmetered charges pence per pound of rateable value

Charge Area	Local Authority Areas	Water Pence		Wastewater Pence
		Tariff (Pre-rebate)	Charge (Post-rebate)	
1	Kensington & Chelsea London, City of Westminster	69.23	65.66	38.40
2	Barking & Dagenham Brent Camden Hackney Hammersmith & Fulham Islington Newham Redbridge Tower Hamlets Waltham Forest	82.91	78.63	55.15
	Havering	N/A	N/A	
3	Bexley Bromley Croydon Dartford Epsom & Ewell Gravesham Greenwich Kingston Lambeth Lewisham Merton Richmond Sevenoaks Southwark Sutton Tandridge Wandsworth	92.35	87.59	59.82
	Tonbridge & Malling	N/A	N/A	

Charge Area	Local Authority Areas	Water Pence		Wastewater Pence
		Tariff (Pre-rebate)	Charge (Post-rebate)	
4	Barnet Broxbourne East Hertfordshire Enfield Epping Forest Haringey Welwyn Hatfield	90.49	85.82	59.01
	Brentwood Harlow Luton North Hertfordshire Stevenage Uttlesford	N/A	N/A	
5	Chiltern Dacorum Ealing Hounslow Slough South Buckinghamshire Spelthorne Wycombe	92.10	87.35	61.16
	Harrow Hertsmere Hillingdon St. Albans South Bedfordshire Three Rivers Watford	N/A	N/A	

Charge Area	Local Authority Areas	Water Pence		Wastewater Pence
		Tariff (Pre-rebate)	Charge (Post-rebate)	
6	Basingstoke & Deane Chichester Elmbridge Guildford Hart Horsham Kennet Mole Valley Newbury Reading Reigate & Banstead Waverley Windsor & Maidenhead Wokingham	106.51	101.01	72.30
	Bracknell Crawley East Hampshire Mid Sussex Runnymede Rushmoor Surrey Heath Winchester Woking	N/A	N/A	
7	Aylesbury Vale Cherwell Cotswold North Wiltshire Oxford South Oxfordshire Swindon Vale of White Horse West Oxfordshire	126.88	120.34	84.09
	Daventry South Northamptonshire Stratford Tewkesbury	N/A	N/A	

Table 6 Fixed charge per year for surface water drainage only

	Wastewater
	Surface water drainage only
All households	£42.45

Assessed household charge

Where the assessed household charge is payable, it will be calculated on the basis set out below.

Table 7 Assessed household charges

Band	Bedrooms	Water		Wastewater
		Tariff (Pre-rebate)	Charge (Post-rebate)	
1	0/1 bedroom	£130.70	£123.95	£80.40
2	2 bedrooms	£142.45	£135.10	£87.63
3	3 bedrooms	£164.35	£155.87	£101.10
4	4 bedrooms	£181.79	£172.40	£111.83
5	5 or more bedrooms	£205.04	£194.46	£126.14
6	Single Occupier*	£105.40	£99.96	£64.84

In addition, the customer pays a fixed charge of £36.45 for Water pre-rebate, £35.26 for Water post-rebate and £61.21 for Wastewater (£34.81 for abated Wastewater) as detailed in Table 4 above.

* N.B. Single occupier – i.e. one person only. A single parent with children at the same address will not be classed as a single occupier. The single occupier charge applies provided Thames Water has received satisfactory confirmation that there is only one occupier.

No access tariff

Thames Water reserves the right to transfer household customers to the no access charge where the customer has denied Thames Water access for the purpose of fitting, replacing, maintaining or reading a meter.

Table 8 Fixed charge per year for No Access tariff

	Water		Wastewater
	Tariff (Pre-rebate)	Charge (Post-rebate)	Full
All households	£370.67	£352.27	£279.57

Other unmeasured charges

Where an unmeasured supply only serves a domestic garage, car space or store area at a household premise, a fixed annual charge for each unit will apply. Where there is no water supply, but surface water drains to our sewer, only the wastewater fixed charge is payable.

Table 9 Domestic garages, car spaces and stores – unmeasured fixed charge per year

Domestic garages, car spaces and stores	Annual Charge	
Water fixed charge per garage, car space or store	Tariff (Pre-rebate)	£10.97 per garage
	Charge (Post-rebate)	£10.41 per garage
Wastewater fixed charge per garage, car space or store		£7.32 per garage

WaterSure tariff

The capped metered tariff that applies to customers who qualify for the WaterSure scheme will have the following caps applied to their annual metered charges.

Table 10 WaterSure tariff annual price caps

	WaterSure tariff annual price cap	
	Water	Wastewater
WaterSure customers	£210	£185
