

# Wholesale tariff guide 2021/2022

# CMOS Tariff Codes 2021-22

Wholesale tariff document section numbers relate to the 2021-22 Wholesale Tariff Document, the references for previous years may differ slightly.

All of Thames Water’s CMOS Tariff Codes Start with NHH to indicate a NHH tariff.

This will be followed by a code indicating the Service Component type. If the Service component code is prefixed with “SA” then this indicates a Special Agreement Tariff (B.4 Special Agreement Tariffs).

Code	Service Component Type	Wholesale Tariff Document Section	
		Standard Tariff	Special Agreement Tariff
MPW	Metered Potable Water	B.1 Metered Water & Wastewater Charges	N/A
MNPW	Metered Non-Potable Water	N/A	N/A
MS	Metered Sewerage	B.1 Metered Water & Wastewater Charges	B.4.1 Wastewater special agreements
AW	Assessed Water	B.2.7 Business Assessed	N/A
AS	Assessed Sewerage	B.2.7 Business Assessed	N/A
UW	Unmeasured Water	B.2 Unmetered water and wastewater charges	N/A
US	Unmeasured Sewerage	B.2 Unmetered water and wastewater charges	N/A
TE	Trade Effluent	B.3 Trade Effluent charges	B.4.2 Trade Effluent special agreements

## **MPW & MS (B.1)**

### Volumetric Charges

For Metered Water & Wastewater the Service component code will be followed by a number identifying the tariff band.

Water Band	Sewerage Band	Annual Consumption (m <sup>3</sup> )	Table B.1.2-4: Consumption (m <sup>3</sup> )
1	1	0 – 500	0 – 20,000
2	2	500 – 1,000	
3	3	1,000 – 5,000	
4	4	5,000 – 20,000	
5	5	20,000 – 50,000	20,000 – 50,000
6	6	50,000 – 100,000	50,000 – 100,000
	7	100,000 – 250,000	100,000 – 250,000
7	8	250,000+	Over 250,000

### MS Fixed Charges (Table B.1.1-3)

Metered Customers are charged fixed charges for each meter based on the Sewerage Chargeable meter Size. The letter following the Sewerage Band indicates whether the charges are from the column labelled Full or Abated.

Code	Fixed Charge Type
F	Full Charge
A	Abated Charge

Supplementary Large User Charges (Table B.1.3-5)

Water Band	Annual Consumption (m <sup>3</sup> )	Table B.1.3-5: Water Consumption (m <sup>3</sup> )
5	20,000 – 50,000	20,000 – 50,000
6	50,000 – 100,000	50,000 – 250,000
	100,000 – 250,000	
7	250,000+	Over 250,000

Sewerage Band	Annual Consumption (m <sup>3</sup> )	Table B.1.3-5: Wastewater Consumption (m <sup>3</sup> )
7	100,000 – 250,000	Over 100,000
8	250,000+	

When a large user tariff code is suffixed with “SAT” the supplementary large user charge is not applied to the SPID.

**AW & AS (B.2.7)**

Volumetric Charges (Table B.2.7-12)

For assessed Water and Wastewater the Service component code will be followed by a number identifying the tariff consumption band. This number should not be confused with the property band (Table B.2.7-11).

Water Band	Sewerage Band	Annual Consumption (m <sup>3</sup> )	Table B.2.7-12: Assessed Usage (m <sup>3</sup> Per Year)
1	1	0 – 500	0 – 20,000
2	2	500 – 1000	
3	3	1000 – 5000	
4	4	5000 – 20,000	

AS Fixed Charges (Table B.2.7-14)

Assessed Customers are charged fixed charges on each SPIDs Assessed Sewerage Chargeable meter Size. The letter following the Sewerage Band indicates whether the charges are from the column labelled Full or Abated.

Code	Fixed Charge Type
F	Full Charge
A	Abated Charge

If an assessed Customer has more than 1 pipe they will be charged a multiple of the standard fixed charges. In these cases the below code will be added to the end of the tariff code, where ## represents the number of pipes. Additionally these codes do not have a number representing tariff band and are charged the 0 – 20,000 rate.

_##PIPES	## * Standard Fixed Charges Price (up to 15mm Pipes size Only)
----------	--

## **UW & US (B.2)**

### **RV Charges (Table B.2.2-4)**

For unmeasured Water and Wastewater charges where the service component code is followed by a number this represents the RV charging region based on the customers Local Authority area.

<b>Water Band 2020-21</b>	<b>Sewerage Band 2020-21</b>	<b>RV Charging Area 2020-21</b>
01	01	Charge Area 1
02	02	Charge Area 2
03	03	Charge Area 3
04	04	Charge Area 4
05	05	Charge Area 5
06	06	Charge Area 6
07	07	Charge Area 7

The RV charging areas have been renumbered for 2020 onwards. New tariff codes are introduced

<b>Water Band 2017-20</b>	<b>Sewerage Band 2017-20</b>	<b>RV Charging Area 2017-20</b>	<b>RV Charging Area 2020-21 onwards</b>
1	1	Charge Area 1	Charge Area 4
2	2	Charge Area 2	Charge Area 5
3	3	Charge Area 3	Charge Area 1
4	4	Charge Area 4	Charge Area 2
5	5	Charge Area 5	Charge Area 6
6	6	Charge Area 6	Charge Area 3
7	7	Charge Area 7	Charge Area 7

### **US Fixed Charges (Table B.2.1-3)**

Unmeasured Customers are charged sewerage fixed charges on each SPIDs Pipe Size. The letter following the Sewerage Band indicates whether the charges are from the column labelled Full Or Abated.

<b>Code</b>	<b>Fixed Charge Type</b>
F	Full Charge
A	Abated Charge

If an unmeasured Customer has more than 1 pipe they will be charged a multiple of the standard fixed charges. In these cases the below code will be added to the end of the tariff code, where ## represents the number of pipes.

_##PIPES_10MM	## * Standard Fixed Charges Price (up to 15mm Pipes size Only)
---------------	--

### Drainage Only Charges (In B.2.3-6)

Where the unmeasured Service component code is followed by “DOF” this indicated the site only has surface water drainage and all accounts on this tariff code are charged a fixed annual charge.

### Sundry Charges (B.2.8-15, B.2.8-16, B.5-4)

Sundry Charges are applicable for all unmeasured accounts except drainage only properties. Charges only apply where the CMOS item count >0. Where the unmeasured service component code is followed by “SUN” this indicated that a SPID will only be charged sundry charges with no RV or pipe size element.

<b>CMOS Item Type</b>	<b>Thames Water Item Name</b>	<b>Wholesale Tariff Document Table</b>
A	Garage, Car Space Or Store	B.2.8-15
B	Allotment tank and water/washdown point	B.2.8-16
C	Sprinkler, cricket pitches, tennis courts, ornamental pond/fountain and misc. supplies	B.2.8-16
D	Per unmeasured cattle trough	B.5-4
E	Minimum charge for meter minimum equivalents	B.2.8-16

### Trade Effluent (B.3)

#### Trade effluent Fixed Charges

Trade effluent has fixed charges based on tariff code

<b>TE Band</b>	<b>Annual Consumption (m<sup>3</sup>)</b>	<b>Table B.3-5: Discharge Volume (m<sup>3</sup> per annum)</b>
1	0 – 500	0 – 500
2	500 – 1,000	500 – 1,000
3	1,000 – 5,000	1,000 – 5,000
4	5,000 – 20,000	5,000 – 20,000
5	20,000 – 50,000	N/A
6	50,000 – 250,000	
7	250,000+	

#### Trade Effluent Strength Charges

The Trade Effluent tariff code will be suffixed to indicate which strength charges are applied to the operational data loaded in CMOS.

<b>Code</b>	<b>TE Charge Type</b>	<b>Wholesale Tariff Document Table</b>
S	Standard Tariff	B.3-1
LV	Large Volume Tariff	B.3.1-6
LVSAT	Large Volume Tariff (Satellite DPID, No Supplementary Charge)	B.3.1-6
LVC	Low Volume Consent (Minimum Charge Only)	B.3-4

**Special Agreement Mapping (B.4)**Wastewater Special Agreements (Table B.4.1-1)

<b>Tariff Code</b>	<b>Special Agreement Reference</b>
NHHSAMS7A	TMSSEW1
NHHSAMS8A	TMSSEW2

Trade Effluent Special Agreements (Table B.4.2-2)
